We will pull SCAP 4 reports for pipeline on Wednesday afternoon, so please make sure the changes have been input in CERCLIS by COB Tuesday so they can refresh overnight - thanks

Subject: Pipeline Plan - based on Don's updates

---

Per Don's updated spreadsheet distributed 10/27/11:

Included are Don's Color coded (traffic light) adjustments,  
Notes are reflected in comments that you can see when your mouse hovers over a cell with a small red triangle in the upper right corner  
Don moved some funding to FY13, and that is reflected in the FY13 shaded column to the right

CERCLIS requested funding will be modified to match these numbers ( or the agreed upon numbers if needed). We will pull a new SCAP 4 when the adjustments are made.

((Grant numbers are based on FY11 numbers and do not reflect FY12 requests - as do other non-site specific needs))

FY12 Pipeline Plan 10-27-11 per DW.xlsm

I went to the RACs contracts to identify the approved work plan ceiling and the

funding on task orders. The difference (Avail Ceiling) will show how much funding can be added before a work plan modification is needed - or potentially an adjustment in requested funding. I adjusted the FY12 funds requested based on Don's updated spreadsheet.

Please let me know of any changes or adjustments or corrections that are needed - thanks
